Dental Materials Fact Sheet

Patient Confirmation of Receipt

Effective January 1, 2002 dentists are required by the State of California to provide a copy of the ***Dental Materials Fact Sheet*** to any patient that will be receiving restorative treatment. This confirmation of receipt form must be signed by the patient or the patient's guardian and filed in the patient's chart, acknowledging receipt of the fact sheet. It is not an informed consent document, and the State of California does not endorse the information nor does it recommend a particular course of treatment; this is a matter that remains to be discussed between the patient and his/her dentist. The information contained on the fact sheet is simply intended to educate patients on the various types of materials used by dentists during the course of restorative dental treatment, in a similar manner to package labeling found on most food.

A partir del 1° de Enero de 2002 se requerirá que todos los dentistas del Estado de California le proveán una copia de los ***Factores de Materiales Dentales*** *a todo paciente que reciba tratamiento restaurativo. Esta confirmación de recibo debe ser firmada por el/la paciente o padre/madre o tutor y archivada en el expediente de cada paciente afirmado haber recibido la copie de los Factores. Este documento no es un consentimiento informado y el Estado de California no endosa la información ni recomienda un curso particular de tratamiento: este es un asunto que debe decidirse entre el/la paciente y su dentista. El propósito de la hoja de factores es proveer información para los pecientes con respecto a los diferentes tipos de materiales que unilizan los dentistas durante el curso del tratamiento restaurative de odontologia, de una manera similar a la que se utiliza en las étiquetas de empaque de productos alimenticios.*

Desaforunadamente el Estado de California no ha redactado este documento en Español y no nos ha permitido traducirlo.
